THERE IS HOME, THERE IS LOVE, THERE IS OPPEIN

ABOUT OPPEIN

Founded in 1994, OPPEIN is China’s No.1 kitchen and customized home décor brand, and the world’s largest cabinetry manufacturer. We design and manufacture high-quality kitchens, wardrobes, bespoke home furniture, bathroom products, interior doors, aluminum windows & doors and home furnishing, capable of offering one-stop home décor products and solutions. Output and sales of kitchen cabinet reached 830 thousand sets, ranking No.1 in the kitchen industry.

In 2021, OPPEIN’s sales turnover reached USD 3.14 billion, havrvesting its consecutive 28th years of growth. Output and sales of cabinets reached 6 million sets, ranking No.1 in the cabinetry industry.Our products have been exported to 118 countries and regions, and the total market value of OPPEIN exceeded 100 billion yuan (USD 15.3 billion) in March 2021.

In overseas markets, what sets us apart from our competitors is our Italy design, European quality, one-stop whole-house products & solutions, and reliable local services.

OPPEIN takes great pride in its extensive franchise distribution system. We have a productive showroom operation model and thoughtful support policies to help the franchisees win. Currently, we have a remarkable number of over 7,200 franchise showrooms worldwide to serve local retail businesses.

The global project business is another importance we attach to. We cooperate closely with builders, developers, contractors, and architects to develop different types of residential and commercial business; up to now, we have completed over 10,000 real estate projects around the globe, including some significant local landmark projects.

We achieve this through our unceasing striving for perfection, and the passion to satisfy an individual’s needs for better home décor. Our vision is to make OPPEIN a modern, innovative company respected and loved by the people, held in the highest esteem in China, and emulated around the world.

Where there is home and love, there OPPEIN is.

FASHION SERIES

The design is not just to create a “refined” work, but behind it is a reflection on human society, the connection between people and the essence of human spirit, “people-oriented, more humane”.

In terms of appearance design, YDL102DG adopts the design language of “minimalist aesthetics” that is most in line with the aesthetic pursuit of modern people, removes complicated shapes, and creates a simple and unique visual through the close combination of concise frame and surface material texture and characteristics feel.

Simplicity makes the product highly applicable, and it can describe the overall unity of beauty with a variety of styles, which is a rare feature in many high-value competition works.

Uniqueness makes it simple and extraordinary. The selection of materials and the application of line proportions are appropriate. People’s definition of aesthetics always starts from comfort.

OPPEIN Innovation proposes that “soundproof is the basic function of interior doors and the beginning of consumer confidence”, and OPPEIN responds to consumers’ demands for soundproof from the source.

FUNCTION DOOR SERIES

Soundproof door/Jib door/Folding door
/Buffer door/Fire door/Moisture door

INTERIOR DOOR INDUSTRY INNOVATION | 5 NOISE REDUCTION STANDARDS

SOUNDPROOF LEVEL OF 28dB

INTELLIGENT SOUNDPROOF AND DUSTPROOF SYSTEM

PLANET brand door bottom soundproof and dustproof strip, automatically lowers when the door is closed, effective soundproof and dustproof.

MAGNETIC SOUND INSULATION SYSTEM

AGB magnetic silent lock, no noise.

FRICTION AND NOISE REDUCTION SYSTEM

three-dimensional adjustable invisible hinge, self-lubricating wear-resistant sheet to reduce friction, effective noise reduction.

BEVEL NEW NOISE REDUCTION SYSTEM

45-degree oblique design, stepped noise reduction.

DOOR SILENT SYSTEM

the door is thickened by 5mm to double the sound insulation effect.

Smart Home Solutions

OPPEIN is Huawei's only customized home IOT strategic partner so far. In August 2019, OPPEIN officially joined forces with Huawei to help smart homes. The two parties will combine OPPEIN's strong channel system and Huawei's strong technical strength. We are committed to the construction of smart home products and solutions, and bring consumers a one-stop smart life solution with a higher-end and better experience.

FIRST-RATE FLAME RETARDANT

Multiple fire-resistant design;Long standby time

Fire resistance and high integrity
Thermal insulation ≥ 1.5h;The escape door can effectively prolong the rescue time by more than or equal to 1.5 hours.

First-rate anti-fire wooden door can often be burnt for up to 1.5 hours.

Through hundreds or thousands of combined tests, it is determined that the "black technology" composite LVL innovatively manufactured fire-resistant keel in the flame-retardant industry can withstand high temperature of 1200°C for up to 1.5 hours.

Inorganic minerals are resistant to burning and not deformed

Inorganic mineral materials are combined with cutting-edge technology, so that the materials contain wood and minerals, which are resistant to burning and not deformed.

First-rate anti-fire wooden door certification

After four years of research and development, more than 1,000 repeated tests, it has obtained the national first-rate anti-fire wooden door certification.

Swell Retardant Strip can expand up to 30 times

The flame retardant gap is infinitely close to 0, which is more direct and effective to block smoke and prevent the spread of fire.

Optional Styles

Security Doors (YDY037D)

Leaf Color: PWMG0244 Door Jamb Code: YFXD022 Lock: PWWRF097
Hinge: PWW00050

SECURITY DOORS

Multiple anti-pry design, all aspects of security upgrade

The industry's first indoor safety door, better airtight, more secure, more solid and reliable.

1 361° All-round Protection

From entering the home to the interior, it creates a 361° three-dimensional security guard for home life, ensuring that the door has a good thermal insulation and sound insulation effect.

2 Better sealing than ordinary bedroom doors

Equipped with a hook-type latch, the locking is more secure, preventing theft tools from intervening through the gap and unlocking to ensure that the closing door has great thermal insulation and sound insulation.

3 Up to 6 keyholes for extra security

When using dangerous instruments such as electric drills to attack the lock, the security door can provide enough first aid time, making it safer and more secure.

4 There is a safety lock cylinder at home, and the family can feel at ease.

Sufficient length to prevent the door leaf from being bent and deformed, and the panel is galvanized to prevent rust.

Moisture-proof Panels (YDA104D)

Leaf Color: PWMA0127 Door Jamb Code: YFXF049 Lock: PWWRF034
Hinge: PWW00050

MOISTURE-PROOF DOOR

FUNCTION DOOR SERIES

1 Moisture-proof Method

☉ Adopt Exclusive uf Glue Formula; ☉ Stable structure, waterproof and moisture-proof; ☉ Contains water repellent factor; ☉ Make cellulose and lignin raw materials form network cross-linking.

The water repellent group forms the water repellent principle, which plays the role of waterproof and moisture-proof

3 Waterproof Membrane

☉ Special moisture-proof coating on the back of the door frame; ☉ Effectively resist wall moisture; ☉ Waterproof membrane and moisture-proof panel form double waterproof protection; ☉ All-round water and moisture resistance.

Environmentally friendly resin is calendered, focusing on details and comprehensive protection.

2 Water Repellent Technology

☉ Develop Innovative Moisture-proof Panel; ☉ Moisture-proof and anti-deformation; ☉ 3mm Thickness; ☉ Internal and external protective door frame base material to isolate moisture.

24h water absorption thickness expansion rate ≤ 15%, much lower than 3 times of the national standard (45%)

4 Methods of Disconnecting

☉ Add waterproof and moisture-proof strips; ☉ Prevent the door frame from being deformed and cracked by moisture; ☉ Extend Service Life; ☉ Disconnect from ground surface moisture.

Obtained the national utility model patent. Patent No.ZL 2019 2 0214762.X.
